Professional Experience

Ground Control Studios

Game Programmer

Porto, Portugal

Oct 2024 – Apr 2025

- Developed systems and gameplay mechanics for commercial game projects using C#, C++, Unity, and Unreal Engine.
- Utilized Scrum methodologies, Jira, and Git for task management and version control.
- Collaborated with cross-functional teams to deliver production-ready features.

Ground Control Studios

Professional Programming Intern

Porto, Portugal

Sep 2023 – Sep 2024

- Successfully ported a Unity project to the **Nintendo Switch**, handling platform-specific constraints.
- Integrated full controller support into existing Unity projects to enhance user accessibility.
- Contributed to daily development cycles using C++, C#, and Version Control (Git).

Saber Interactive Porto

AI Programmer Intern

Porto, Portugal

Jan 2023 – Jul 2023

- Developed and optimized AI systems using C++ and **Blueprints** in **Unreal Engine 5**.
- Implemented **Mass Entity AI** to significantly improve the scalability of in-game NPC behavior.
- Utilized Perforce and Jira within a professional Scrum environment.
- *Recommendation:* Recognized by the studio for "quick understanding of new workflows" and "eagerness to learn."
